## About Me

A Computer Science and Engineering student at the American International University of Bangladesh, proficient in app and website development, backend systems, and database management, is passionate about delivering innovative solutions and enhancing system performance using modern frameworks like React.js, Tailwind CSS, and MongoDB.

## Skills

- **Programming Languages:** C++, Python, JavaScript, PHP, C#
- **Web Development:** React.js, JavaScript, Node.js, HTML, CSS, Bootstrap, Tailwind, MongoDB
- **Database Management:** MySQL, Oracle
- **Other Tools:** Git, XAMPP, Framer Motion, Lottie Animations

## Education

- Bachelor of Science in Computer Science and Engineering  
*American International University-Bangladesh*  
2022 - Expected 2026

## Experience

### Technical Assistant (University Projects)

- Collaborated on team-based software engineering projects.
- Implemented CRUD operations and database management systems using C# and MySQL.
- Contributed to documentation and debugging tasks.

### Intern Web Developer – Self-Initiated Projects

- Developed and deployed multiple portfolio websites and dynamic applications.
- Gained hands-on experience with technologies like PHP, React.js, and MySQL.
- Worked on user authentication systems and responsive designs.

## Projects

### Portfolio Website (PHP, MySQL, HTML, CSS)

- Developed a dynamic portfolio website to showcase personal projects and achievements.
- Implemented a user login system and an admin panel to manage blogs and projects.
- [View Project Live](#)

### Edusity Website (React, CSS, JavaScript)

- Designed and developed a responsive university website using React.
- [View Project Live](#)

### React Portfolio Website

- Built a responsive portfolio website with animations using React and Framer Motion.
- Integrated Lottie animations for dynamic visuals.
- [View Project Live](#)

### Skill Development Projects

- Currently building responsive websites using React.js, Tailwind CSS, and MongoDB for practice and skill enhancement
